Boland College Values The Boland College brand lives its values of equal opportunities, accessibility, democracy, effective management, co-operation, loyalty, respect, trust, integrity, honesty, transparency, service, fairness and the development of the full potential of learners. Boland College serves the needs of the widespread Boland area Boland College serves the needs of the widespread Boland area by providing affordable, lifelong, quality education and training in line with the social and economic needs of the community. We, at Boland College, understand that South Africa with its different sectors need employers and employees with above-average skills and that is why our programmes are intended to directly respond to the priority skills demands of the Boland, as well as South African, economy. Our qualifications provide theory and practical experience Our qualifications are designed to provide both the theory and practical experience related to a particular vocational field. This ensures access to work opportunities in a work environment or sector relevant to the student's vocational specialisation. Boland College's Management commits itself to ensuring that the quality of its education and training services will be determined and guided by its vision, mission, values and quality objectives.
