

# D'Vine Skin & Body

---

Phone: +27(21) 913 0897

D'Vine Skin & Body is a beauty salon in Durbanville, with a proud reputation for exceptional skincare treatments and an array of beauty and body treatments for women and gents. You will find us nestled among the picturesque vineyards of Durbanville's wine route, in The Vineyards Office Estate, only 2km from Tyger Valley shopping centre - the perfect setting for a day of pure indulgence. Here, clients can expect to enjoy a relaxing and truly pampering experience, no matter what treatment you receive.

Our reputation for exceptional skincare is thanks to the extensive experience in our leadership team of Liezel Brits and Heidi Derbyshire. Both Liezel and Heidi are internationally trained therapists and remain active in the business, with a caring hand in the skincare journey of our clients. Our facials are our claim to fame. Each facial has been designed to rejuvenate, restore and revitalise any skin type. We also offer touch therapy and make use of skin technologies that include Bio Therapeutic Nano, LED treatments and Dermapen, all of which specifically cater to ageing skins.

On arrival, an experienced therapist will consult with you to decide on the best treatment for your specific skin and body concerns. Our therapists are qualified, experienced and have in-depth knowledge of our professional skincare range. As a client, you can rest assured that you are in caring and capable hands.

We also offer the ultimate in body treatments. Pampering body wraps will transcend you into a world of well-being; or clients can choose to indulge in the pleasures of hot stone therapy, or a range of massages.

We have 8 rooms available at our salon, one of which is a tandem room where our treatments can be enjoyed with a friend or loved one.

Given our highly regarded beauty products and our staff's expertise, you can look forward to a most sublime experience at our beauty salon in Durbanville!
